## Confessions Of A Call Girl

Kathy talks about her time working as a telephone astrologer for the Psychic Circle. Kathy spent three years working for this company answering calls from all around the world, using astrology and the tarot to explore their questions.

Kathy will provide real life examples of the callers, she will be sharing the astrological techniques that she used to hone in on their problems quickly and make predictions about the future. She will also be recounting tales based on her experiences in this job, some are sad, others deep and meaningful and some quite amusing!
